The Code Compliance Department helps ensure property values are maintained by assisting property owners in complying with health, safety, and welfare standards. Periodically, liens are placed on property to support the compliance process. The purpose of the lien is not to generate funds for the county; therefore, once property is brought into compliance, the actual costs incurred by the Code Compliance Department are collected, and the balance of the lien amount is requested to be released.

The lien amount figure is calculated by multiplying the daily fine amount by the total number of days the property remains in violation. Costs are calculated by adding the number of inspections performed (@ \$50 each) during the course of the code case, all actual costs of postage, and administrative costs in the amount of \$100.
